We are one of the region’s premier international schools for students aged 3 to 19 years. We provide boarding from the age of 11 and enjoy a diverse student population, with students from over 20 different countries across Asia, Europe and Australia. In the Secondary School, we have established ourselves over 20 years as one of the leading British-style, co-educational boarding schools in Malaysia, with over 700 secondary students aged 11 to 19. In September 2013, we opened our state of the art Primary School, which currently has 130 students.

KTJ is proud to be spread across over 80 acres of beautiful Malaysian countryside, where we accommodate our students and provide an excellent range of facilities.

We are a registered charity, so all proceeds are channeled back into the school, which is why we are able to offer outstanding facilities, dedicated teachers and an exceptional education. Students at KTJ achieve superb examination grades, while being able to undertake a wide range of sporting and extra-curricular activities. They are also renowned for their independence and confidence, qualities that stand them in good stead as they progress to higher education anywhere in the world. KTJ also accepts day students, who do not board, and we have a number of day students from the surrounding area.

Community

KTJ has enjoyed rapid growth over the past few years. There are 855 students, 263 of whom are sixth formers, mostly from Malaysia and South East Asia. In June, 123 senior A Level students will graduate.
Our students take A Levels from the UK in the Sixth Form.

The curriculum is tailored to the students’ requests as much as possible, with each student taking a maximum of four subjects. Each student has a tutor who, in conjunction with subject teachers and the Sixth Form team, will give advice concerning university choices and will work with their students to develop first class applications. To further support this process, we have visits from all of the top universities at least once a year, where students can talk to admissions tutors and have access to the most recent information. Whilst most of our students are bound for the UK, we know that many of our students will apply to more than one country and have developed good working relationships with universities at home in Malaysia, and those in the USA, Australia, Canada, New Zealand and Ireland.

The Sixth Form environment is focused on achieving and celebrating success in all areas. Each year the school offers academic scholarships.
